

1. Procedure pack

Step order, gates, allowed UI targets

2. Telemetry

Direct simulator state from DCS-BIOS

3. Reviewed visual facts

Observable cockpit-display propositions

4. Retrieved text

Explanation support, not gate authority

5. LLM output

Wording and diagnosis candidates only

Procedure state is computed
outside the LLM

Overlay targets must pass
schema and UI allowlists

Missing/conflicting evidence
causes downgrade or fallback
